

FREEDOM FELLOWSHIP

“The authentic Christian life is essentially and radically different from the natural life lived by a man or woman. Outwardly, it can be very much the same, but inwardly the basis of living is dramatically different. Christ is a part of every wholesome action, the corrector of every wrong deed or thought, the giver of joy and the healer of hurt. No longer merely on the edges of life, Christ is the center of everything. Life revolves around him. As a consequence, life comes into proper focus. Despite outward trials, a deep peace possesses the heart, strength grips the spirit and kindness and joy radiate abroad. This is really living!”
- Ray Stedman
